National Tracking Poll #180126
February 01-04, 2018

Crosstabulation Results

Methodology:
This poll was conducted from February 01-04, 2018, among a national sample of 1985 registered voters. The interviews were conducted online and the data were weighted to approximate a target sample of registered voters based on age, race/ethnicity, gender, educational attainment, and region. Results from the full survey have a margin of error of plus or minus 2 percentage points.

Table POL18: *As you may know, President Donald Trump has declared opioid abuse in the United States to be a public health emergency. Some say this order is enough to address opioid abuse, as it allows federal health agencies the authority to quickly hire more treatment specialists and re-direct existing funds to respond to the epidemic. Others say this order is not enough to address opioid abuse, because it does not approve any additional funds to respond to the epidemic. Based on what you know, which of the following statements comes closer to your view, even if neither is exactly right?*

Table POL18b: *As you may know, President Donald Trump has declared opioid abuse in the United States to be a public health emergency. Some say this order is not enough to address opioid abuse, because it does not approve any additional funds to respond to the epidemic. Others say this order is enough to address opioid abuse, as it allows federal health agencies the authority to quickly hire more treatment specialists and re-direct existing funds to respond to the epidemic. Based on what you know, which of the following statements comes closer to your view, even if neither is exactly right?*
