Table MCBR7: As you may know, President Biden recently released a plan to increase COVID-19 vaccination rates. This plan includes: Requiring all employers with 100 or more employees to mandate COVID-19 vaccinations or weekly testing Requiring federal workers and contractors to get vaccinated for COVID-19, without an option to opt out through regular testing Requiring most U.S. health care workers to get vaccinated for COVID-19, without an option to opt out through regular testing Encouraging states to require COVID-19 vaccinations for all school employees. Would you say you are more or less likely to buy products and services from companies that require COVID-19 vaccinations or weekly testing among their employees?

Table MCBR10: As you may know, President Biden recently released a plan to increase COVID-19 vaccination rates. This plan includes: Requiring all employers with 100 or more employees to mandate COVID-19 vaccinations or weekly testing Requiring federal workers and contractors to get vaccinated for COVID-19, without an option to opt out through regular testing Requiring most U.S. health care workers to get vaccinated for COVID-19, without an option to opt out through regular testing Encouraging states to require COVID-19 vaccinations for all school employees. To what extent would you support or oppose a lawsuit brought against the federal government to overturn President Biden’s plan, including the vaccination mandate?
