

National Tracking Poll #2109015
September 02-08, 2021

Crosstabulation Results

Methodology:

This poll was conducted between September 2-September 8, 2021 among a sample of 1000 Health Care Workers. The interviews were conducted online and the data were weighted to approximate a target sample of Health Care Workers based on gender, educational attainment, age, race, and region. Results from the full survey have a margin of error of plus or minus 3 percentage points.
