Table GR13_1: As you may know, the U.S. and several European countries have engaged in diplomatic negotiations with Russia to identify possible compromises to prevent Russia from invading Ukraine, some of which are related to NATO. NATO is a security alliance which includes the United States and some European countries, and which provides mutual military defense to its members in response to a military attack. Ukraine has previously expressed an interest in joining NATO. How much do you support or oppose the following potential compromises?

The U.S. and other NATO members formally announce that they will not let Ukraine join NATO now or in the future

Table GR13_4: As you may know, the U.S. and several European countries have engaged in diplomatic negotiations with Russia to identify possible compromises to prevent Russia from invading Ukraine, some of which are related to NATO. NATO is a security alliance which includes the United States and some European countries, and which provides mutual military defense to its members in response to a military attack. Ukraine has previously expressed an interest in joining NATO. How much do you support or oppose the following potential compromises?

Ukraine agrees to cede part or all of the Donbas region, a region in Eastern Ukraine that is partially controlled by Russian separatists, to Russia or otherwise allow it to become independent

Table GR15: As you may know, 'Swift' is a global system used by banks and financial institutions, including those in the U.S. and Russia, to manage international financial transfers. The U.S. is currently considering banning Russia from using the Swift network, which would make it extremely difficult for Russian banks and financial institutions to engage in business transactions with foreign entities. Based on what you know, do you support or oppose U.S. attempts to ban Russia from using Swift to prevent a potential Russian invasion of Ukraine?
