Table POL14_1: *As you may know, gasoline used in vehicles is made in part from oil, and the U.S. and Russia are the first and second largest oil producers in the world, respectively. The conflict between Ukraine and Russia could lead to further increases in U.S. gasoline prices if this conflict leads to disruptions in Russia's exports.If the conflict between Ukraine and Russia led to further increases in U.S. gasoline prices, to what extent would you say each of the following were responsible, if at all?*

Table POL14_3: *As you may know, gasoline used in vehicles is made in part from oil, and the U.S. and Russia are the first and second largest oil producers in the world, respectively. The conflict between Ukraine and Russia could lead to further increases in U.S. gasoline prices if this conflict leads to disruptions in Russia's exports. If the conflict between Ukraine and Russia led to further increases in U.S. gasoline prices, to what extent would you say each of the following were responsible, if at all?*
Ukrainian President Volodymyr Zelenskyy

Table POL14_6: *As you may know, gasoline used in vehicles is made in part from oil, and the U.S. and Russia are the first and second largest oil producers in the world, respectively. The conflict between Ukraine and Russia could lead to further increases in U.S. gasoline prices if this conflict leads to disruptions in Russia's exports. If the conflict between Ukraine and Russia led to further increases in U.S. gasoline prices, to what extent would you say each of the following were responsible, if at all?*
