Table GR17_6: As you may know, the U.S. and several European countries have engaged in diplomatic negotiations with Russia, some of which are related to NATO. NATO is a security alliance which includes the United States and some European countries, and which provides mutual military defense to its members in response to an attack. Ukraine has previously expressed an interest in joining NATO. Now that Russia has invaded Ukraine, how much do you support or oppose the following potential compromises in exchange for Russia withdrawing from Ukraine? Ukraine agrees to cede part or all of the Donbas region, a region in Eastern Ukraine that is partially controlled by Russian separatists, to Russia or otherwise allow it to become independent

Table GR17_7: As you may know, the U.S. and several European countries have engaged in diplomatic negotiations with Russia, some of which are related to NATO. NATO is a security alliance which includes the United States and some European countries, and which provides mutual military defense to its members in response to an attack. Ukraine has previously expressed an interest in joining NATO. Now that Russia has invaded Ukraine, how much do you support or oppose the following potential compromises in exchange for Russia withdrawing from Ukraine? Ukraine agrees to allow local governments in the Donbas region, a region in Eastern Ukraine that is partially controlled by Russian separatists, to have veto power over certain aspects of Ukrainian foreign policy, like Ukraine's decision to try to join NATO

Table GR30: As you may know, 'Swift' is a global system used by banks and financial institutions, including those in the U.S. and Russia, to manage international financial transfers. Now that Russia has invaded Ukraine, the U.S. is considering banning Russia from using the Swift network, which would make it extremely difficult for Russian banks and financial institutions to engage in business transactions with foreign entities. Based on what you know, do you support or oppose U.S. attempts to ban Russia from using Swift?

Table GR30: As you may know, 'Swift' is a global system used by banks and financial institutions, including those in the U.S. and Russia, to manage international financial transfers. Now that Russia has invaded Ukraine, the U.S. is considering banning Russia from using the Swift network, which would make it extremely difficult for Russian banks and financial institutions to engage in business transactions with foreign entities. Based on what you know, do you support or oppose U.S. attempts to ban Russia from using Swift?
