

National Tracking Poll #2209019
September 12-14, 2022

Crosstabulation Results

Methodology:

This poll was conducted between September 12-September 14, 2022 among a sample of 1000 Adults. The interviews were conducted online and the data were weighted to approximate a target sample of Adults based on age, gender, educational attainment, and region. Results from the full survey have a margin of error of plus or minus 3 percentage points.
